

THE REAL DEAL

NOAA NATIONAL SEVERE STORMS LABORATORY VISITS WESTON EOC

Scientists from the National Severe Storms Laboratory, a division of the US Department of Commerce and NOAA, collected data in the Weston area throughout Hurricane Irma. Before and after their Irma's impact, they stopped in on the Weston Emergency Operations Center to visit with personnel working through the storm for the City of Weston.

The National Severe Storms Laboratory serves the nation by working to improve the leadtime and accuracy of severe weather warnings and forecasts in order to save lives and reduce property damage. NSSL scientists are committed to their mission to understand the causes of severe weather and explore new ways to use weather information to assist National Weather Service forecasters and federal, university and private sector partners.
