

REGISTER TO VOTE ONLINE Or Update Existing Registration Records

Register toVoteFlorida.gov

Effective October 1, 2017, the Florida Department of State launched the state's new online voter registration website. RegisterToVoteFlorida.gov offers Florida residents another way to register to vote or update an existing registration that is convenient, secure and user-friendly.

The website for the online voter registration is offered in English and Spanish and is available 24 hours a day, seven days a week.

Florida residents who register to vote online will need a Florida driver license or state identification (ID) card and the last four digits of their social security number to complete and submit the voter registration application electronically. If the information cannot be validated, as prompted by the system, voters will be required to print the application from the website and mail or hand-deliver it to the Elections Office.

Florida's 67 county Supervisor of Elections now join 35 other states and the District of Columbia that have online voter registration available to their residents.

REMINDER:

The deadline to register for an upcoming election is 29 days before that election. You can also update your registration record at any time. However, since Florida is a closed primary election state, a party change for a primary election must be made by the registration deadline for that election. If the deadline has passed, you can still submit an online application at any time and it will be processed for future elections.
