

BIKING NORTH ON WESTON ROAD?

Grant Funding Approved for Installation of New Bike Lanes

The City of Weston and the City of Sunrise each submitted an application to the Broward Metropolitan Planning Organization's (MPO) Complete Streets and Other Localized Initiatives Program (CSLIP) for the construction of bicycle lanes on Weston Road from Indian Trace north to State Road 84. Earlier this month, the City of Weston was notified that the funding for the entire project has been approved.

The 1.7 mile segment will ensure that there will now be a dedicated bike lane along Weston Road from Griffin Road to State Road 84, which is one of the proposed route improvements that was outlined in the [City of Weston's Bicycle Master Plan](#) in 2013. The lane will also provide additional bicycle connectivity from the City of Weston to Broward County's Markham Park, located in Sunrise, just north of State Road 84.

In addition to this project, the City is applying to the CSLIP program for the construction of bike lanes on Bonaventure Boulevard from State Road 84 south to Indian Trace. A public open house was held for that project on November 7th. The application will be submitted to the MPO later this month.
