

MATH MADNESS COMPETITION

Falcon Cove Ranked 9 in Top 100 Highest Scoring Teams

Math Madness is a team-based event that takes place during the Fall in which hundreds of middle schools and high schools from across the country compete to be national champions. The idea behind Math Madness is to create a structure that motivates students throughout the entirety of a school semester. The program encourages active participation weekly so that students can observe actual progress, and in turn, amplify their efforts to continue their success.

AreteLabs, which developed and hosts Math Madness explains the competition as having been modeled “in part after the popular NCAA March Madness Basketball Tournament, the hope is that it will be more easily understood and embraced by the public, and thus, that students will eventually receive the same recognition and support that athletes do to fuel their efforts.” This year, our very own Falcon Cove Middle School placed 9th in the Top 100 Highest Scoring Teams.

The screenshot shows the AreteLabs website interface. The top navigation bar includes 'Home', 'ClassMatch', 'Math Madness', 'Pick-up Play', 'Uberowl', and 'Member Login'. The main content area is titled 'Classifications' and features a 'Top 100 Highest Scoring Teams' section. On the right, the 'National Standings' table is displayed, sorted by 'Top 5 players' and showing '1-10 of 100' teams. The table lists the following teams and their locations:

#	Team
1	The Harker School (Blackford) San Jose, CA
2	Fort Settlement M.S. Sugar Land, TX
3	Raymond J. Grey Junior High Acton, MA
4	Redwood Middle School Saratoga, CA
5	Lincoln M.S. Gainesville, FL
6	Mason Middle School MASON, OH
7	Cupertino M.S. Sunnyvale, CA
8	Harvest Park M.S. Pleasanton, CA
9	Falcon Cove M.S. Weston, FL
10	Evergreen M.S. Redmond, WA
