

## **BROWARD SHERIFF'S OFFICE DISTRICT VIII WESTON IS NOW UTILIZING LOJACK SAFETYNET**

### ***Search and Rescue System for those at risk***

To further ensure the safety of our residents and community, the Broward Sheriff's Office District VIII Weston will now utilize the *LoJack SafetyNet* search and rescue system. *LoJack SafetyNet* is a tool for the caregivers and family members of anyone with a medical condition that may cause him or her to wander or become lost. SafetyNet is frequently used by people afflicted with Alzheimer's and autism, but is effective in rescuing anyone with a cognitive disorder.

#### **How Does It Work?**

- Client is outfitted with a Personal Locator Unit on his or her wrist or ankle.
- If a client goes missing, his or her caregiver contacts authorities.
- Law enforcement agency utilizes LoJack's Search and Rescue Receiver to track the Personal Locator Unit virtually anywhere.
- Your loved one is located, rescued and returned to you.

Unlike GPS, LoJack SafetyNet's radio frequency technology works in densely wooded areas, wetlands, buildings, concrete structures or any other hidden location. Weston law enforcement agents have undergone extensive training with LoJack's time tested electronic tracking and rescue equipment. The average time to find a person who has wandered is less than 30 minutes utilizing only two to three officers.

***To apply for a Personal Locator Unit call 1-877-434-6384 or visit [www.LoJackSafetyNet.com](http://www.LoJackSafetyNet.com).***

*Once you have been authorized and receive your Personal Locator Unit, call Crime Prevention Specialist, Kari Pallatto at the Weston Police Services Center at 954-389-2030 to be added to the Weston roster.*
