

CONGRATULATIONS
DAVID KELLER, ASSISTANT CITY MANAGER/CFO, and
DARREL THOMAS, CITY TREASURER

Members of city staff are encouraged to continuously increase their credentials. On July 26, 2010 David Keller, Assistant City Manager and Chief Financial Officer (CFO) and Darrel Thomas, Treasurer did just that as they were formally recognized for successfully completing their Certified Public Funds Investment Manager (CPFIM) credential, awarded by the Association of Public Treasurers' of the United States and Canada (APT US & C).

To receive this certification, both completed eight hours of CPE credits and passed an exam administered by APT US & C. Mr. Keller and Mr. Thomas formally joined the 175 members of the association who hold the CPFIM designation when they were honored for their accomplishment at the 45th Annual Conference held in Charleston, South Carolina in July 2010.

The CPFIM program is a nationally recognized accreditation designed to recognize individuals demonstrating to their community and employer that they are a qualified investment manager. In today's economic climate the CPFIM is a reinforcement of leadership and management skills; recipients are tested in the areas of investment management, banks, brokers and advisors, governance and investment policy, safety, liquidity and yield, cash flow, and strategy. Congratulations to Dave Keller and Darrel Thomas on this prestigious certification!

David Keller, Assistant City Manager/CFO

Darrel Thomas, Treasurer

POTENTIAL ELIMINATION OF BUS ROUTE 23 Broward County Board of County Commissioners PUBLIC HEARING - SEPTEMBER 14, 2010

The possible elimination of Bus Route 23, the only public transportation route provided to the City, which runs north and south along Weston Road, has attracted the attention of Weston's elected officials, bus riders, business owners and the public.

On August 17, 2010 Broward County Transit (BCT) hosted a public meeting at Broward Health Weston to receive public comments regarding BCT's proposed elimination of Route 23. Weston Mayor Eric Hersh, Commissioner Mercedes G. Henriksson and Commissioner Angel Gomez and over 40 members of the public were present. BCT staff provided a presentation and listened to the concerns expressed by those present. Weston officials support keeping Bus Route 23 in service, and the city is currently constructing 14 bus stop shelters along Weston Road (a map showing shelter locations is attached).

The shelters are approximately 9 feet by 14 feet in size and are designed to give those waiting for the bus significant protection from South Florida's sun and rain. Each shelter is equipped with a bench, waste receptacle, bicycle rack, and lighting. The shelters are designed to blend in aesthetically with the Weston surroundings while providing a safe environment for riders with visibility through the tempered glass on the rear and sides etched with the Weston "W".

The Broward County Board of County Commissioners will hold a public hearing to consider the elimination of Bus Route 23 on Tuesday, September 14, 2010 at 2:00 p.m. at the Broward County Governmental Center (Room 422) located at 115 S. Andrews Avenue, Fort Lauderdale, FL 33301.

In addition to public hearing notification efforts on behalf of Broward County, the City of Weston will place notification signs at each Route 23 bus stop location to inform riders and the public of the September 14th hearing. *For additional information contact Broward County Transit at 954-357-8355.*

GAS & PHONE SAFETY TIPS

HURRICANE PREPAREDNESS – *A Continuing Series*

Gas Safety Tips

Evacuate immediately if you smell natural gas which has the odor of rotten eggs, or see a broken gas line. Ventilate the area by opening windows or opening a door. Do not light matches, turn on any light switches, or use the telephone. Call the gas company immediately from a telephone outside the home or business. ***TECO Energy/Peoples Gas crews are available to respond to natural gas emergencies. For 24-hour service, call 1-877-832-6747.*** If you are unable to contact your gas company, call **9-1-1**.

If you evacuate, do not turn off the gas supply at the main meter. Only emergency or utility personnel should turn this valve. If you choose to do so, you can turn off the gas for individual appliances. If you have difficulty re-lighting pilot lights, or if gas appliances have been exposed to flood waters, do not attempt to operate the appliance. Contact a plumber, qualified service contractor, or your gas company.

Telephone/Cell Phone Tips

Be patient. Expect delays in getting calls through because of the high demand. Use your phone only for necessary calls, leaving lines open for emergency calls. Your phone line may be inoperable if your phone equipment requires power. Plug a hardline phone (not cordless) directly into the phone jack to verify whether you have service. Use your cell phone to send text messages which often get through when voice calls won't. Use your cell phone car charger to charge your cell phone.
