

AUTOMATED CURBSIDE GARBAGE COLLECTION SYSTEM

Each Weston residence with curbside collection automatically receives a 96-gallon wheeled cart at no cost. Do not mark or alter the cart in any way.

Simply roll the cart to the curb and a special collection vehicle with a robotic arm will pick up the cart and empty the contents. The arm resets the cart upright and the cart's lid closes automatically.

What goes into the cart and where is it placed?

Household garbage should be bagged before placing it into the cart. Lids are designed to seal in odors and overlap for rain protection. They will not blow open in windy conditions. Lids will close after the cart is emptied. All carts must be placed curbside by 7 a.m. on your garbage collection day.

Place the cart at the curb and at least three feet away from your mailbox, trees, fire hydrant, gas or water meter, other garbage/recycling carts or anything that the automated equipment could damage. Place the cart with the handle and wheels towards your residence.

What about curbside parking on collection day?

Do not park at the curb on collection day. If a vehicle interferes with the safe collection of your garbage, then you will not receive service on that day. Where sidewalks are narrow, place carts facing the street with the wheels against the curb. Park vehicles so as to accommodate the collection system, at least three feet away from the cart.

What if I move?

The cart belongs to the City of Weston and must remain at the residence.

What about Yard Waste?

Place any unbundled vegetative waste into the cart. Small amounts of palm fronds placed next to the cart will also be picked up.

What if my cart is stolen, damaged or destroyed?

If the cart damage is your fault, you will be required to pay for a replacement (\$62). If the damage is caused by the collection contractor or if the cart is stolen, you can request a replacement at no charge. The serial number on the cart helps the City locate lost or stolen carts and return them to the proper residence.

What if I want an additional cart?

The 96-gallon cart holds a substantial amount of waste. After using the service, if you decide that an additional cart is needed you may purchase another cart (a 96-gallon or 64-gallon cart is available for \$62.) Call Republic Services at 954-583-1830.
