## Section 1524 HIGH VELOCITY HURRICANE ZONES – REQUIRED OWNERS NOTIFICATION FOR ROOFING CONSIDERATIONS

§1524.1 **Scope**. As it pertains to this section. It is the responsibility of the roofing contractor to provide the owner with the required roofing permit, and to explain to the owner the content of this section. The provisions of Chapter 15 of the *Florida Building Code*, *Building* govern the minimum requirements and standards of the industry for roofing system installations. Additionally, the following items should be addressed as part of the agreement between the owner and the contractor. The owner's initial in the designated space indicates that the item has been explained.

	Aesthetics-Workmanship: Reserved			
	<b>Renailing Wood Decks</b> : When replacing roofing, the existing wood roof deck may have to be renailed in accordance with the current provisions of Chapter 16 (High-Velocity Hurricane Zones) of the <i>Florida Building Code, Building.</i> (The roof deck is usually concealed prior to removing the existing roof system.)			
	Common Roofs: Reserved.			
	<b>Exposed Ceilings:</b> Exposed, open beam ceilings are where the underside of the roof decking can be viewed from below. The owner may wish to maintain the architectural appearance; therefore, roofing nail penetrations of the underside of the decking may not be acceptable. This provides the option of maintaining this appearance.			
	Ponding Water: Reserved.			
	<b>Overflow Scuppers (wall outlets):</b> It is required that rainwater flows off so that the roof is not overloaded from buildup of water. Perimeter/edge walls or other roof extensions may block this discharge if overflow scuppers (wa outlets) are not provided. It may be necessary to install scuppers in accordance with the requirements of RR4403 an RR4413.			
	Owner's/Agent's Signature	Date	Contractor's Signature
